## Certificate Courses in GOODS AND SERVICE TAX (GST)

### What is GST ?

The Goods and Services Tax (GST), India's largest tax reform, was implemented in India on July 1, 2017. Goods and Services Tax (GST) is a comprehensive indirect tax provision on the supply of goods and services across India. GST is a destination-based tax, collected at the point of consumption instead of the point of origin. This new tax system with a single tax will transform the current indirect tax regime and is expected to affect the country's entire economy, companies and society. GST replaced the multiple indirect taxes such as central excise duty, service tax, VAT, and others, streamlining the taxation system and promoting ease of doing business. GST is something that definitely affects us not only when we do business in India, but also when we live in India. It is designed to bring a comprehensive and transparent tax system between individuals or businesses to the government. Hence, it is useful to Students to learn for their future prospects.
