### Policy document on environment and energy usage

The college is committed to sustainable development in all its endeavours. Within its scope, it contemplates to streamline ways on energy conservation and utilization through socially responsible ways.

### Policy Statement

The main objective behind the environment and energy usage policy of the college is to manage energy in a systematic way to save the environment. This environment and energy policy is in tune with all the components of the institution and applies to all its stakeholders and to various activities undertaken by the institution.

### Objectives

- To develop awareness on environmental issues
- To reduce air pollution using environment friendly vehicles, like bicycles, public transport and use pedestrian friendly roads.
- To implement appropriate procedure for waste management
- To encourage green practices within the campus and beyond
- Use of LED or compact fluorescent bulbs as much as Possible
- Turn of lights and use day light needed
- To develop rainwater harvesting unit.
- To provide a pollution free and healthy environment.
- To maintain cleanliness and sanitation in campus.
- To provide information and training on energy saving measures.
- Practice the 4R's-Reduce, Reuse, Recycle and Refuse wherever possible.

### Strategies

- We have developed systematic waste management mechanism.
- Steps were taken to cause an awareness the students on saving our environment and energy usage
- Students are involved in organizing cleanness drive in the college campus.
- LED bulbs are installed in the campus to save energy.

### Conclusion

The above strategies and procedures of implementation are subject to change in view of need and demands of time. This policy is communicated to all the students and employees of the college. All the stakeholders are required to abide by the policy to keep the college campus green, clean and eco-friendly.
